**Bio\*Chakra™ Color Types In Love**  
Eve's New-AncientScience™

**Bio\*Chakra™ Color Types in Love (original research)**  
\*There are 13 basic Bio\*Chakra™ Color Types, created by the different uses of our 13 main energy fields in the body. The Types are expressed as Colors Types and have corresponding cosmic fields, which all were known by the ancient healing religions (or, res.). Colors influence and balance both, the physical and the esoteric world. Colored lights act and balance with the speed of light, emitting photons, which have the tendency to elevate all they touch. Imagine the healing power of colors, attuned to the body/mind/spirit fields as given by the colors of the ingenious Indian physician Dhanishah. Miracles have happened from his colors' use!

\*All Bio\*Chakra™ Color Types (Cosmic Leaf™ No. 7) make the rainbow of exciting experience. Color Types may change during the course of life due to inner and outer influences: Cher changed from a Blue Type to a mainly Scarlet one, although we are all mixed Color Types™. Therefore, the famous Bio\*Chakra™ Color Types, given as examples, may not in all detail match the Bio\*Chakra™ (B+C) Key Words. Find out what Color Type matches you/your partner's personalities best. When you have found your Bio\*Chakra™ Color Type, you may try to balance your distress/needs and overcome recognized fears, and address your partner frequently at his/her color level and be amazed. Seek professional help if needed.

\* Make sure that your partner understands your Color Type. With colors, **Love**

**The Light - White Bio\*Chakra Color Type™**  
**B+C Key Word** Universal Love. **Wants** to be the leader. **Needs** life base security. **Fears** being needy. **Offers** financial security, responsibility. **Romantic Style** status, class, money. **Ideal Partner** will make him/her feel desired and trusted without question, assists him/hic in career, will accept his/her leadership. **Famous White B+C Color Type™** Richard M. Nixon, former US President.
